RE: South Carolina Electric & Gas Company - Annual Review of the Purchased Gas
Adjustments and Gas Purchasing Policies; Docket No. 2006-5-G
Adjustment to cost of gas factors

Dear Mr. Terreni:

By Order No. 2006-679 ("Order"), dated November 13, 2006, issued in the above-referenced docket, the Public Service Commission of South Carolina ("Commission") authorized South Carolina Electric & Gas Company ("SCE&G" or the "Company") to adjust its cost of gas factors monthly beginning December 2006 pursuant to Paragraph 4 of the Settlement Agreement entered into between the Company, the South Carolina Office of Regulatory Staff ("ORS"), and the South Carolina Energy Users Committee ("SCEUC"), which was approved and adopted by the Commission and attached to the Order as Order Exhibit No. 1. Before the first billing cycle of each month and pursuant to Paragraph 4 of Order Exhibit No. 1, SCE&G recalculates its forecast total cost of gas factors to determine whether an adjustment should be made to the current cost of gas factors. If there is no Material Difference (this term is defined in Order Exhibit No. 1) between the newly recalculated gas cost factors and the gas cost factors currently in effect, then SCE&G must notify the Commission, ORS, and the SCEUC that the existing cost of gas factors will remain in effect for the next billing cycle. If, however, a Material Difference exists, then SCE&G must notify the Commission, ORS, and the SCEUC of the Company's intent to adjust its gas cost factors.

In accordance with the procedure and methodology set forth in Paragraph 4 of Order Exhibit No. 1, the Company has recalculated its forecast total cost of gas factors for December 2006. Based upon the Company's calculations, a Material Difference exists between the newly recalculated gas cost factors and the gas cost factors in effect. Consequently, SCE&G intends to modify the cost of gas factors currently in effect beginning with the first billing cycle of December 2006.

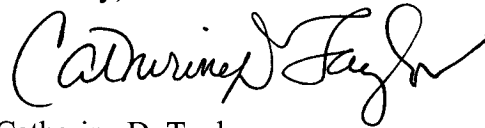

In compliance with Order No. 2006-679, this letter serves as notification to the Commission that SCE&G will adjust its cost of gas factors beginning with the first billing cycle of December 2006 to reflect the recalculated gas cost factors. The new total cost of gas factors will be \$1.24039 per therm for Residential, \$1.13023 per therm for Small/Medium General Service, and \$1.08980 per therm for Large General Service. The updated cost of gas factors stated above will remain in effect until further updated by the Company pursuant to the methodology set forth in Paragraph 4 of Order Exhibit No. 1.

In support of the new cost of gas factors enclosed are updated versions of Exhibits A and B to Order Exhibit No. 1. Also enclosed for approval are updated firm rate sheets reflecting the recalculated gas cost factors. Please present this notification with the attached enclosures to the Commission for its review and approval at the next meeting of the Commission. Once approved by the Commission, please evidence that approval by returning copies of the updated firm rate sheets to us with the Commission's approval reflected on each updated firm rate sheet.

By copy of this letter and in compliance with the Order, I am also notifying ORS and the SCEUC of the updated cost of gas factors. In addition, I am providing them with copies of updated versions of Exhibits A and B as well as the updated firm rate sheets.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Catherine D. Taylor
